## **SOURCE APPOINTS JESUS CASTRO MORA AS CONSULTANT**

**SOURCE EXPLORATION CORP. (the “Corporation” or “Source”) (SOP: TSX-V)** announced today that it has appointed Mr. Jesus Castro Mora, M.Sc., of Mexico City as a geological consultant to the company to assist the Corporation with identifying and evaluating high potential precious metals properties in Mexico.

Mr. Castro Mora is Director General of Geoconsulting Ingenieros, S.C., a geological consulting firm based in Mexico City and focused on providing geotechnical services for the exploration, mining, construction industry. He served as Head of the Geological Science Department at the National Autonomous University of Mexico, Mexico City, and currently holds the position of Professor of Field Geology, Metallogeny and Applied Geology at the university.

Mr. Mora has extensive knowledge of the mineral resources and geology of Mexico, gained through his employment with both government bodies and public Mexican and Canadian exploration companies. From 1996-2003 he was employed as Senior Geologist with the Mexican Geological Survey (SGM) and responsible for directing geological mapping projects in southern Mexico. Mr. Mora was also employed for an eight year period as Exploration Geologist for the Mexican Mineral Resources Council (CRM), where he was closely involved with the evaluation of several deposits and prospects throughout Mexico, including epithermal, VMS, skarns, porphyry and intrusive related deposits as well as directing geophysical surveys and diamond drilling programs.

Brian E. Robertson, President and CEO, stated, “I look forward to working closely with Mr. Mora. His in-depth knowledge of Mexico’s geology and mineral deposits as well as contacts with government and industry personnel will advance the company’s objective of identifying high value mineral exploration properties for acquisition and development.”

### **About Source Exploration**

Source Exploration is a well-financed Canadian based mineral exploration company focused on the evaluation, acquisition and development of economic gold and silver deposits in Mexico. The company’s Las Minas project is located in the heart of the historical Las Minas mining district, which is host to one of the largest under explored gold – silver – copper skarn systems known in Mexico.
