The accompanying notes are an integral part of these condensed consolidated interim financial statements.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN UNCERTAINTY

Mexican Gold Mining Corp. (the “Company”) was incorporated under the *Business Corporations Act* (Alberta) on October 5, 2006. On January 17, 2011, the Company was continued into the jurisdiction of Ontario and on February 10, 2020, was continued as a British Columbia corporation under the *Business Corporations Act* (British Columbia). The address of the Company’s registered office is 2500 – 700 West Georgia Street, Vancouver, BC, Canada V7Y 1B3.

The Company is a mineral exploration company engaged in the acquisition, exploration and evaluation of resource properties in Mexico. The Company’s resource properties presently have no proven or probable reserves, and on the basis of information to date, it has not yet determined whether these properties contain economically recoverable resources. The recoverability of expenditures on its resource properties is dependent upon the existence of economically recoverable resources, the Company securing and maintaining title and beneficial interest in the properties, and the ability of the Company to obtain the necessary financing to complete the exploration and development and future profitable production or, alternatively, on the sufficiency of proceeds from disposition.

These condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going-concern basis and do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. The ability of the Company to continue as a going concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. As at March 31, 2026, the Company has an accumulated deficit of \$39,349,688, working capital of \$682,545 and negative cash flow from operating activities of \$422,846. Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, or other business and financial transactions which would assure continuation of the Company’s operations and exploration programs. In order for the Company to meet its liabilities as they come due and to continue its operations, the Company is solely dependent upon its ability to generate such financing. These factors comprise a material uncertainty which may cast significant doubt about the Company’s ability to continue as a going concern.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, tariffs, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events and potential economic global challenges, such as the risk of higher inflation and energy crises, may create further uncertainty with respect to the Company’s ability to execute its business plans.

The Company is currently in dispute with a neighboring concession owner over the overlap of the Las Minas property. The overlapping area comprises approximately 11% of the Las Minas project. As ordered by the Regional Court of Tlaxcala of the Federal Tribunal of Administrative Justice, exploration will be suspended until the court reaches a decision on the claims dispute. The suspension of the exploration activities applies within the overlapping area only. The Company, after consulting with its Mexican legal counsel, is of the view that the dispute is without merit and believes that Roca Verde has valid ownership to the overlapping area under applicable Mexican law. Until the dispute is resolved, the Company has placed Las Minas under care and maintenance.

These condensed consolidated interim financial statements were approved by the Board of Directors of the Company on May 29, 2026.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

2. MATERIAL ACCOUNTING POLICY INFORMATION

The Company's condensed consolidated interim financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”).

These condensed consolidated interim financial statements do not include all the information and note disclosures required by IFRS for annual financial statements and should be read in conjunction with the annual consolidated financial statements for the year ended June 30, 2025, which have been prepared in accordance with IFRS Accounting Standards as issued by the IASB and included in Part I of the Handbook of the Chartered Professional Accountants of Canada.

The policies applied in these condensed consolidated interim financial statements are the same as those applied in the most recent annual consolidated financial statements and were consistently applied to all periods presented.

a) Basis of preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments classified as financial instruments at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

b) Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary as follows:

	Place of Incorporation	Principal Activity
Roca Verde Exploracion de Mexico, S.A. de C.V.	Mexico	Exploration company

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the condensed consolidated interim financial statements. Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

c) Significant accounting estimates and judgments

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated interim financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates.

These condensed consolidated interim financial statements include estimates which, by their nature, are uncertain. The impact of such estimates are pervasive throughout the condensed consolidated interim financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c) Significant accounting estimates and judgments (continued)

These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at year end that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to the following:

(i) Critical accounting judgments

- Presentation of the condensed consolidated interim financial statements as a going concern which assumes that the Company will continue in operation for the foreseeable future, obtain additional financing as required, and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due.
- The analysis of the functional currency for each entity of the Company. In concluding that the Canadian dollar is the functional currency of the parent and the Mexican peso of its subsidiary company, management considered the currency in which expenditures are incurred for each jurisdiction in which the Company operates. Management also considered secondary indicators including the currency in which funds from financing activities are denominated, the currency in which funds are retained and the degree of autonomy the foreign operation has with respect to operating activities.

d) Initial application of new and amended standards in the reporting period

The IASB issued certain new accounting standards or amendments that are mandatory for accounting periods on or after January 1, 2025. The effect of such new accounting standards or amendments did not have a material impact on the Company and therefore the Company did not record any adjustments to the condensed consolidated interim financial statements.

e) New and amended IFRS standards not yet effective

Certain new accounting standards or interpretations have been published that are not mandatory for the current period and have not been early adopted. These standards and interpretations are not expected to have a material impact on the Company's condensed consolidated interim financial statements, except for IFRS 18 "Presentation and Disclosure in Financial Statements."

IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of information in financial statements and has an effective date of January 1, 2027. The effects of the adoption of IFRS 18 on the Company's condensed consolidated interim financial statements have not yet been determined.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

3. EXPLORATION AND EVALUATION OF RESOURCE PROPERTIES

Cumulative exploration and evaluation expenditures as of March 31, 2026 and 2025 are \$18,050,290.

On October 1, 2021, the properties were placed in care and maintenance. Care and maintenance costs of \$131,568 (2025 - \$82,487) were incurred in the current period. During the current period, the Company also incurred mineral property acquisition costs of \$537,928.

Las Minus Project

As at March 31, 2026, the Company owns a 100% interest in the Las Minus and La Miqueta properties, collectively named the Las Minus Project, through its wholly owned subsidiary Roca Verde Exploracion de Mexico, S.A. de C.V. ("Roca Verde"). The project is comprised of six mineral concessions located in the Las Minus district in the state of Veracruz, Mexico consisting of the Pepe, Pepe Tres, San Jose, Pueblo Nuevo, La Luz I and San Valentin mineral concessions.

The project rights were acquired by making staged payments in cash and common shares of the Company to the vendors from 2010 through 2018, under two separate, fully executed option agreements. Each of the vendors retained a 1.5% net smelter return ("NSR") subject to a buyback provision, at the Company's discretion, to purchase one third or 0.5% NSR for US\$500,000 from each of the vendors. Pursuant to the terms of the purchase and sale agreement of the Pepe, Pepe Tres and San Jose mineral concessions, Roca Verde has a right of first refusal ("ROFR") in the event that the vendor intends to transfer all or part of the NSR.

On June 17, 2019, the Company entered into a letter agreement ("Letter Agreement") pursuant to which the Company caused its wholly owned subsidiary, Roca Verde, to sell and assign (the "Assignment") the ROFR and the buyback provision allowing the Company to purchase one third or 0.5% NSR for US\$500,000 on the Pepe, Pepe Tres and San Jose mineral concessions to 1198578 B.C. Ltd. ("BC Co") for consideration of:

- BC Co making a cash payment of \$50,000 direct to Roca Verde (paid);
- BC Co advancing a loan of \$450,000 to the Company (paid);
- BC Co depositing \$500,000 (the "Escrow Funds") into escrow with the Company's legal counsel, Farris LLP, as escrow agent (paid).

Exercise of Royalty Rights

If BC Co exercises the ROFR prior to the Company's board of directors making a decision to commence production on any portion of the Property (a "Production Decision"), then, at the time that a Production Decision is made, the Company must pay BC Co US\$500,000 (the "Payment Obligation"), which BC Co must use the exercise the buyback provision to purchase one third or 0.5% NSR from the vendor.

If the Company proposes to sell, transfer, assign or dispose of any portion of the property prior to a Production Decision having been made, the Company must first ensure that any prospective purchaser or transferee of the Property must agree in writing to be bound, in favour of BC Co to:

- satisfy payment of the Payment Obligation in the event that a Production Decision is made; and
- that it shall not sell, transfer, assign or dispose of any portion of the Property, unless and until the prospective purchaser or transferee of the Property agrees in writing to be bound, in favour of BC Co to satisfy payment of the Payment Obligation in the event that a Production Decision is made.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

3. EXPLORATION AND EVALUATION OF RESOURCE PROPERTIES (continued)

Tatatila Project

On November 12, 2025, the Company and its subsidiary, Roca Verde, completed a mining concessions assignment agreement (the "Assignment Agreement") with Chesapeake Gold Corp. ("Chesapeake") and its subsidiaries Minerales El Prado, S.A. de C.V. ("MEP") and Chesapeake México, S.A. de C.V. ("Chesapeake Mexico"). Pursuant to the Assignment Agreement, the Company acquired 100% of the title and interest (the "Interest") in and to certain mineral titles, and the rights derived therefrom, covering an aggregate of 3,824.3585 hectares known as the Tatatila Project in Veracruz State, Mexico.

In exchange for the Interest, the Company issued Chesapeake an aggregate of 4,451,361 common shares of the Company (the "Consideration Shares"). As further consideration for the Interest, the Company granted to Chesapeake Mexico a net smelter returns royalty ("Royalty") in an amount equivalent to 1.5%. The Company has a buy-back option on the Royalty that provides Roca Verde with the right to purchase 0.5% of the Royalty from Chesapeake Mexico for US\$500,000 during the 10 years following the date of execution of the Assignment Agreement, which would reduce the Royalty to 1%.

4. DEMAND LOAN

On July 29, 2025, for cash received, the Company issued a promissory note to Palisades Goldcorp Ltd. for \$80,000. The promissory note was due upon demand and bore interest at 15% per annum, payable when the principal amount was repaid. The loan, including interest of \$3,584, was repaid in November 2025.

5. SHARE CAPITAL AND RESERVES

Authorized Share Capital

At March 31, 2026, the authorized share capital comprised an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

On February 26, 2025, the Company completed a non-brokered private placement offering of 4,000,000 units of the Company at a price of \$0.04 per unit to raise gross proceeds of \$160,000. Each unit consisted of one common share in the capital of the Company and one share purchase warrant. Each warrant is convertible into an additional common share at an exercise price of \$0.06 for a period of three years from the date of issuance. Share issuance costs of \$4,365 were incurred in connection with the private placement financing.

On November 12, 2025, the Company issued an aggregate of 4,451,361 common shares of the Company to acquire 100% of the title and interest in and to certain mineral titles, and the rights derived therefrom, covering an aggregate of 3,824.3585 hectares known as the Tatatila Project in Veracruz State, Mexico.

On November 14, 2025, the Company completed a non-brokered private placement financing of 10,000,000 units of the Company at a price of \$0.085 per unit to raise gross proceeds of \$850,000. Each unit consisted of one common share of the Company and one transferable common share purchase warrant, whereby each warrant shall entitle the holder thereof to purchase an additional share at an exercise price of \$0.12 for a period of three years from the date of issuance.

During March 2026, a total of 1,531,000 share purchase warrants were exercised at \$0.15 per warrant. Total cash proceeds of \$229,650 was received.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

5. SHARE CAPITAL AND RESERVES (continued)

Share Purchase Option Compensation Plan

The Company has a share incentive plan (the "Plan") which is restricted to directors, officers, key employees and consultants of the Company. The number of common shares subject to options granted under the Plan (and under all other management options and employee stock purchase plans) is limited to 10% in the aggregate and 5% with respect to any one optionee of the number of issued and outstanding common shares of the Company at the date of the grant of the option.

The exercise price of each share purchase option is set by the Board of Directors at the time of grant but cannot be less than the market price less allowable discounts in accordance with the policies of the TSX-V.

Share purchase options granted generally vest immediately, are subject to a four-month hold period and may be exercised during a period which cannot exceed ten years, all to be determined by the Board of Directors.

During the period ended March 31, 2026, the Company granted stock options to directors, officers, and consultants of the Company. The stock options were valued using Black-Scholes valuation model with the following weighted average assumptions:

	March 31, 2026	March 31, 2025
Share price at grant	\$0.16	-
Exercise price	\$0.16	-
Expected life (years)	5.0	-
Expected volatility	156%	-
Risk-free rate	2.96%	-
Dividend yield	0%	-
Fair value per option	\$0.15	-

Volatility was determined based on the historical trading prices of the Company.

Options outstanding at March 31, 2026 are as follows:

Expiry date	Exercise Price	June 30, 2025	Expiry	Granted	March 31, 2026	Options exercisable

		8,499,998	4,000,000	12,499,998
Weighted average exercise price \$		0.19	0.06	0.15
Weighted average remaining life (years)		1.88	-	1.45

6. RELATED PARTY BALANCES AND TRANSACTIONS

Key management personnel compensation

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of corporate officers and executive and non-executive members of the Company's Board of Directors.

During the periods ended March 31, 2026 and 2025, key management personnel compensation was as follows:

	2026	2025
	\$	\$
Consulting fees paid to the CEO included within salary and consulting	45,000	45,000
Consulting fees paid to the CFO included within salary and consulting	27,000	27,000
Directors' fees included within salary and consulting	6,000	9,000
Stock based compensation	229,402	-
Total	307,402	81,000

As at March 31, 2026, \$nil (June 30, 2025 - \$18,000) is included in accounts payable and accrued liabilities related to related party transactions. Amounts due to or from related parties are unsecured, non-interest bearing and have no specified terms of repayment.

7. SEGMENTED INFORMATION

The Company currently operates in one operating segment, the exploration of resource properties in Mexico. Management of the Company makes decisions about allocating resources based on the one operating segment. The Company's total assets and liabilities are segmented geographically as follows:

	March 31, 2026		Total
	Canada	Mexico	
	\$	\$	\$
Current Assets	671,054	24,489	695,543
Current Liabilities	(1,702)	(11,296)	(12,998)
Loss for the period	(1,282,817)	(174,876)	(1,457,693)

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

7. SEGMENTED INFORMATION (continued)

	June 30, 2025		
	Canada	Mexico	Total
	\$	\$	\$
Current Assets	38,028	13,682	51,710
Current Liabilities	(18,891)	(19,377)	(38,268)
Loss for the year	(231,953)	(121,848)	(353,801)

8. FINANCIAL INSTRUMENTS

The Company's operations include the acquisition and exploration of mineral properties in Mexico. The Company examines the various financial risks to which it is exposed and assesses the impact and likelihood of occurrence. These risks may include credit risk, liquidity risk, currency risk, interest rate risk and other risks. Where material, these risks are reviewed and monitored by the Board of Directors.

(a) Fair Values

The Company's financial assets and liabilities are measured and recognized according to a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not active, or inputs, other than quoted prices included in Level 1, that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The Company does not have financial instruments carried at fair value.

The Company's financial instruments consist of cash and accounts payable and accrued liabilities. The carrying values of cash and accounts payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

(b) Financial Instrument Risk Exposure

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company does not have financial instruments that potentially subject the Company to credit risk. The Company's credit risk has not changed significantly from the prior year. The Company places its cash with financial institutions with high credit ratings, therefore the credit risk is minimal and limited to its carrying amount.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

8. FINANCIAL INSTRUMENTS (continued)

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company has historically relied on issuance of shares to fund exploration programs and may require doing so again in the future. The Company has \$12,998 in accounts payable and accrued liabilities that are due within one year of the date of the condensed consolidated interim statement of financial position.

Market risk

(i) Currency risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because it is denominated in a currency that differs from the functional currency of the respective entity. The functional currency of the parent company is the Canadian dollar and the functional currency of the operating subsidiary is the Mexican peso. As of March 31, 2026, the Company has US dollar denominated assets of \$138,338 and US dollar denominated liabilities of \$nil. Based on this net US dollar exposure, at March 31, 2026, a 10% change in the Canadian dollar to the US dollar exchange rate would impact the Company's net income or loss by \$13,834.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company has no debt and holds its cash in a short term redeemable guaranteed investment certificate and, as such, the Company has minimal exposure to interest rate risk.

(iii) Price risk

Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatility. The Company's property has exposure to commodity prices. Commodity prices, especially gold, greatly affect the value of the Company and the potential value of its property and investments.

9. CAPITAL MANAGEMENT

The Company's objectives when managing capital are:

- To safeguard its ability to continue as a going concern in order to develop and operate its current projects;
- Pursue strategic growth initiatives; and
- To maintain a flexible capital structure which lowers the cost of capital.

In assessing the capital structure, management includes in its assessment the components of equity. In order to facilitate the management of capital requirements, the Company prepares expenditure budgets and continuously monitors and reviews actual and forecasted cash flows. To maintain or adjust the capital structure, the Company may, from time to time, issue new shares, issue new debt, repay debt or dispose of non-core assets. The Company's current capital resources are insufficient to carry out exploration plans and support operations through the current operating period. The Company is dependent upon the ability to raise additional funding to meet its obligations and commitments.

The Company is not subject to any externally imposed capital requirements.

Mexican Gold Mining Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months ended March 31, 2026 and 2025

(Unaudited - Expressed in Canadian Dollars)

9. CAPITAL MANAGEMENT (continued)

There were no changes in the Company's approach to capital management during the periods ended March 31, 2026 and June 30, 2025.

10. SUBSEQUENT EVENT

On April 8, 2026, the Company entered into an arrangement agreement (the "Arrangement Agreement") with Alcon Silver Corp. ("Alcon"), pursuant to which the Company will acquire all of the issued and outstanding common shares of Alcon (the "Alcon Shares") in exchange for newly issued common shares in the capital of the Company by way of a court-approved plan of arrangement (the "Proposed Transaction" or "Arrangement") under the Business Corporations Act (British Columbia).

Pursuant to the Arrangement Agreement, and upon the satisfaction or waiver of the conditions set out therein, in connection with the closing of the Arrangement, among other things:

- Mexican Gold will complete a consolidation of its outstanding common shares on a 1.6667:1 basis (the "Exchange Ratio");
- each issued and outstanding Alcon Share will be transferred to, and acquired by, Mexican Gold in exchange for one (1) post-consolidation Mexican Gold Share (each, a "Consideration Share");
- Mexican Gold will change its name to "Platauro Metals Corp." (the "Name Change"); and
- The board of directors of Mexican Gold will be reconstituted to a mutually agreed upon board of directors.

Completion of the Arrangement is subject to a number of conditions, including, but not limited to: (i) approval of the Arrangement Resolution by the Shareholders at the Meeting by not less than 66 $\frac{2}{3}$ % of the votes cast; (ii) receipt of the Final Order from the Supreme Court of British Columbia; (iii) TSXV approval for the listing of the Consideration Shares; (iv) completion of the shares consolidation and the Name Change by Mexican Gold; and (v) receipt of all other required regulatory and third-party approvals.

In connection with the Arrangement, Mexican Gold intends to complete a non-brokered private placement of subscription receipts convertible into units of Mexican Gold for gross proceeds of up to \$2,000,000, or such other amount as may be mutually agreed by the parties, to be completed prior to the Effective Date.
